

## Marking a Pivotal Step in Transformation Journey, Carrier Integrates its EcoEnergy Insights™ and Abound™ Digital Solutions

October 7, 2024

*Carrier aligns its EcoEnergy Insights' suite of solutions under Carrier Abound to accelerate positioning as a global leader in intelligent climate and energy solutions*

PALM BEACH GARDENS, Fla., Oct. 7, 2024 /PRNewswire/ -- Carrier Global Corporation (NYSE: CARR), global leader in intelligent climate and energy solutions, announced today that its EcoEnergy Insights™ business will now go to market globally as [Carrier Abound](#)™. EcoEnergy Insights, a leading provider of Artificial Intelligence (AI) and Internet of Things (IoT) solutions for building and equipment operations will also re-badge its CORTIX™ suite of solutions as Abound solutions. With these changes, Carrier will now offer its customers a comprehensive and cohesive suite of digital solutions and digitally enabled services to achieve outcomes in sustainability, health and well-being, and asset management.

"This integration marks a pivotal step in Carrier's transformation journey to become a global leader in intelligent climate and energy solutions," said Mead Rusert, Vice President, Building Technologies, Carrier. "Bringing our solutions and expertise into one group accelerates our efforts and enhances customer service – further demonstrating our commitment to developing solutions for sustainable building operations."

For nearly 15 years, EcoEnergy Insights has been recognized for its award-winning solutions that have helped customers save over 6 billion kWh globally.<sup>1</sup> This energy savings is equivalent to the greenhouse gas emissions produced by nearly one million gasoline-powered passenger vehicles driven for an entire year.<sup>2</sup>

Leveraging Carrier's expertise in energy-efficient HVAC systems, Carrier Abound aims to enhance operational efficiencies, drive customer engagement and enable smarter, more sustainable building management. The solutions are designed to create value through a combination of innovative technology, advanced analytics and advisory services, ultimately helping customers achieve their sustainability goals.

<sup>1</sup> Calculated to the International Performance Measurement and Verification Protocol, 2011 through 2024.

<sup>2</sup> Equivalency calculation per [U.S. EPA Greenhouse Gas Equivalencies Calculator](#).
